

Location:	Einsiedeln, Switzerland
Client:	Schwyzer Kantonalbank
Contractor:	ARGE Kälin/Stirnemann Multiplex
Product type:	Enkadrain CK 20
Quantity:	1,500m <sup>2</sup>

In addition to its primary drainage function, Enkadrain CK 20 has in this project been serving as a flexible separation layer.

Furthermore, the use of Enkadrain CK allowed to concrete directly onto the interpile sheetings, as the product was functioning as lost shuttering.

Enkadrain CK has number of special characteristics:

- excellent filtering performance
- high discharge capacity
- can serve as moisture removal layer or
- anti-capillary layer between subsoil and base plate when installed horizontally.

Enkadrain CK forms an expansion joint and can be applied as an element of permanent formwork.
